

SHUBHAM MEHROTRA

Senior Full-Stack Engineer | React, Vue, Node | Salesforce Certified
+91-86508-83523 @ mehrotrix@gmail.com

SUMMARY

- **Salesforce Certified JavaScript Developer** with 8+ years of experience building scalable, high-performance applications across e-commerce, SaaS, logistics, and cloud analytics.
- Currently building Cloud Cost Intelligence dashboards at New Relic, handling large-scale telemetry data for cloud cost optimization.
- Expert in React.js, Vue.js, Node.js, and microservices architecture, with strong experience in GraphQL, CI/CD, and performance optimization.
- Experience with AI-assisted development and data-driven systems.

KEY ACHIEVEMENTS

- Reduced PDP load time by 30%, increasing conversions by 12% (1-800-Flowers)
- Optimized checkout performance for a high-traffic e-commerce platform
- Contributed to Bagisto (**20K+ GitHub stars**), improving scalability
- Built cloud cost analytics dashboards at New Relic, handling large-scale telemetry data

WORK EXPERIENCE

Senior Software Engineer — New Relic (Sep 2025 – Present, Hyderabad)

- Building data-intensive Cloud Cost Intelligence dashboards for cloud cost optimization
- Developing scalable frontend systems using React.js and TypeScript to process large-scale telemetry data
- Designing and consuming GraphQL APIs for efficient data visualization and reporting
- Improving performance and usability of enterprise-scale monitoring systems
- Collaborating with cross-functional teams to deliver high-impact features in an Agile environment
- Leveraging AI-assisted development for debugging, code generation, and productivity improvements

Senior Software Engineer - Encora Digital India Pvt Ltd (Sep 2021 – Sep 2025, Bengaluru)

- Led frontend development for large-scale e-commerce platforms (1-800-Flowers, Beckett)
- Built micro-frontend systems using React, Next.js, and TypeScript
- Integrated GraphQL APIs within a microservices architecture
- Improved performance and reduced load times across multiple modules
- Mentored engineers and conducted code reviews

Senior Full-Stack Engineer – Webkul Software Pvt Ltd (Feb 2018 – Sep 2021, Noida)

- Developed scalable e-commerce and CRM solutions using Vue.js, Laravel, Node.js
- Contributed to Bagisto, Krayin, and UVDesk (open-source + enterprise)
- Improved checkout performance and system usability
- Built modules like Marketplace, SaaS, POS, and PWA

SKILLS

Frontend: React.js, Next.js, Vue.js, Nuxt.js, Redux, TypeScript

Backend: Node.js, Laravel, Symfony, REST, GraphQL

Databases: MySQL, MongoDB, Redis

Cloud/DevOps: AWS, Docker, CI/CD

Testing/Quality: Jest, Lighthouse, Core Web Vitals

PROJECTS

New Relic - Cloud Cost Intelligence (Sep 25 – Present) - newrelic.com

Technologies: React.js, TypeScript, GraphQL, Java

- Built dashboards for cloud cost monitoring and optimization
- Processed large-scale telemetry data for real-time insights

- Improved data visualization performance and usability

Uber (Apr 25 – Sep 25)

Technologies: React.js, TypeScript, Node.js

- Led development of a shipment tracking system handling 10K+ daily shipments
- Integrated multiple systems for real-time logistics visibility and optimized frontend performance

1-800-Flowers.Com Inc (May 23 – Apr 25) - 1800flowers.com

Technologies: React.js, Next.js, Redux, TypeScript, Node.js

- Worked on micro-frontend architecture
- Reduced PDP load time by 30%, increasing conversions by 12%
- Improved checkout performance and API integrations

Diffusion Cloud (Sep 21 – May 23) - diffusiondata.com

Technologies: Vue.js, Nuxt.js, Jest, Node.js, Java

- Developed a real-time data platform using Vue.js and Node.js
- Implemented unit testing with Jest

OPEN SOURCE PROJECTS

Krayin CRM (Aug 20 – Sep 21) - [GitHub - Krayin](https://github.com/Krayin)

Technologies: Vue.js, Laravel, MySQL

- Worked as a full-stack developer on this open-source CRM while contributing to Bagisto
- Built features enabling businesses to manage customer/prospect data, track interactions, and collaborate effectively

Bagisto – An open-source eCommerce platform (20K+ GitHub stars) (Dec 19 – Sep 21) - [GitHub - Bagisto](https://github.com/Bagisto)

Technologies: Vue.js, Laravel, Node.js, MySQL

- Contributed to a core e-commerce platform used globally
- Improved checkout performance and scalability
- Built modules: [Marketplace](#), [SaaS](#), [POS](#), [PWA](#), [B2B](#)

UVDesk (Feb 18 – Dec 19) - [GitHub - UVDesk](https://github.com/uvdesk)

Technologies: Vue.js, Symfony, Node.js, MySQL

- Built ticket management features for helpdesk platform
- Contributed to both open-source and SaaS versions

Additional Projects

Beckett (Oct 24 – Jan 25) | Aakash Life (May 22 – Oct 22) | Campus Connect (Jan 19 – Aug 19)

Technologies: React.js, Next.js, Vue.js, TypeScript, Jest, Node.js, MongoDB

- Contributed to multiple projects spanning e-commerce, [healthcare](#), and [education domains](#).
- Developed scalable [frontend components](#), optimizing backend APIs (NestJS, Node.js), writing [unit tests with Jest](#), and ensuring smooth integration across systems.
- Collaborated in small teams, reviewed PRs, and improved [overall code quality and performance](#).

CERTIFICATIONS

- [Salesforce Certified](#) JavaScript Developer II (2025)
- Seminar on [Event Loop](#) and Asynchronous JavaScript
- JS Club Topper – Webkul (Jan 2019)
- Hosted the first [SymfonyIndiaMeetup 2018](#)

EDUCATION

Bachelor of Technology (2013 – 2017)
Moradabad Institute of Technology
